

Quad Plus™

MASTERDRIVE LIFE EXTENSION

The Masterdrive is being phased out by Siemens. Questions such as; How am I going to get parts, repairs, and service immediately come to mind. Rest assured, we have a solution for you.

Quad Plus has developed a Masterdrive Life Extension Program that will enable you to keep your Masterdrives in service for many more years. This program is only 25% of the cost of replacement.

We stand behind our service by offering a 1 year warranty on all drives in our program.

We have repaired over 2000 Masterdrives and have developed a predictive database to ensure drive reliability. We focus on:

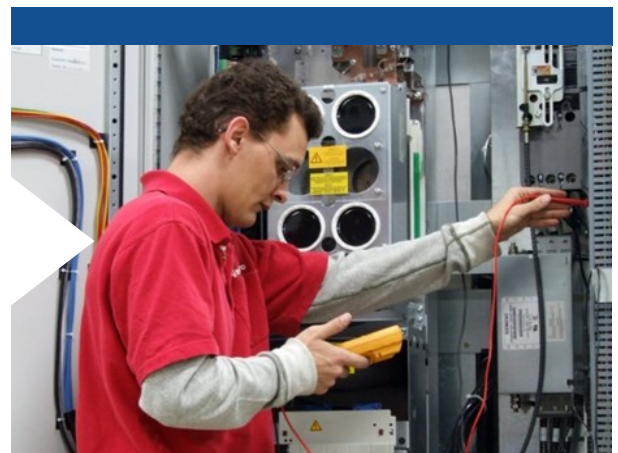

- Cooling Systems (Fans/Couplings)
- DC bus capacitors
- Fiber optic performance
- Gate drivers
- IGBT
- Power Supplies
- Internal power connections

In a good environment, you can get another 10 years operation with our program.

Do you want to start replacing your drives? If yes, we can also assist you with engineered solutions to replace your drives one at a time, or all at once.

Contact us with your Masterdrive needs;

- Life Extension
- Spare Parts
- Repairs
- Field Service
- Technical Support
- Retrofits

About Quad Plus

Quad Plus provides industrial control systems, solutions, and services. We offer an uncompromising level of service and expertise to maintain our customers' productivity. Our extensive process knowledge spans from the utility pole to the motor shaft. With an on-going commitment to follow-up service, parts, and repairs, we are all you need for continued success.

We are recognized in the field as a leader in drive and motor control. Solutions are designed in-house through research and development tailored to meet each client's specific needs. Our design staff includes electrical, mechanical, civil/structural, chemical, and controls.
